

## TROPICAL CYCLONE BULLETIN NR. 2

### Tropical Depression WILMA

Issued at 5:00 PM, 04 December 2025

Valid for broadcast until the next bulletin at 11:00 PM today.

#### WILMA DECELERATES WHILE MOVING OVER THE PHILIPPINE SEA EAST OF NORTHERN SAMAR.

##### Location of Center (4:00 PM)

The center of Tropical Depression WILMA was estimated based on all available data at **575 km East of Catarman, Northern Samar (12.3°N, 129.9°E).**

##### Intensity

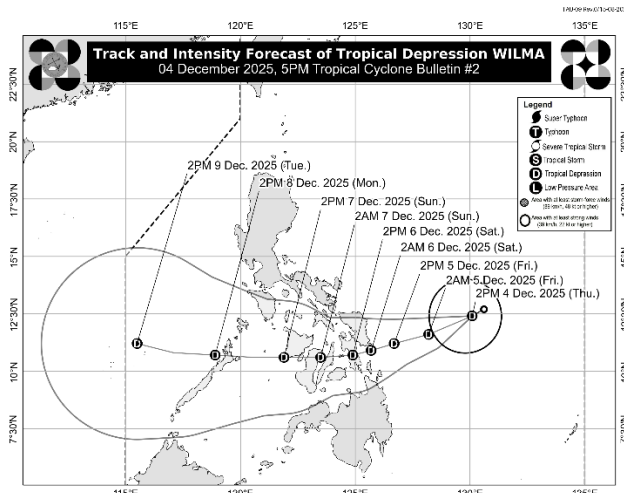

Maximum sustained winds of **45 km/h** near the center, gustiness of up to **55 km/h**, and central pressure of **1004 hPa**

##### Present Movement

**West southwestward at 10 km/h**

##### Extent of Tropical Cyclone Winds

**Strong winds** extend outwards up to **220 km** from the center

|   | Warning lead time: <b>36 hours</b><br>Range of wind speeds: <b>39 to 61 km/h (Beaufort 6 to 7)</b><br>Potential impacts of winds: <b>Minimal to minor threat to life and property</b> |  |  |

## OTHER HAZARDS AFFECTING LAND AREAS

### Heavy Rainfall Outlook

Refer to Weather Advisory No. 5 issued at 5:00 PM today for the heavy rainfall outlook due to Tropical Cyclone WILMA and Shear Line.

### Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

Furthermore the Northeast Monsoon will also bring **strong to gale-force gusts** over the following areas **not under Wind Signal** (especially in coastal and upland areas exposed to winds):

- **Today:** Ilocos Region, Cordillera Administrative Region, Cagayan Valley, Aurora, Bataan, CALABARZON, Mindoro Provinces, Romblon, Marinduque, Bicol Region, and Visayas.
- **Tomorrow (05 December):** Most of Luzon and Visayas.
- **Saturday (06 December):** Most of Luzon, Visayas, Zamboanga Peninsula, and Misamis Occidental.

## TROPICAL CYCLONE BULLETIN NR. 2

### Tropical Depression WILMA

Issued at 5:00 PM, 04 December 2025

Valid for broadcast until the next bulletin at 11:00 PM today.

#### HAZARDS AFFECTING COASTAL WATERS

**Gale Warning is in effect over the northern and western seaboard of Northern Luzon and the eastern seaboard of Luzon and Visayas.** Refer to Gale Warning No. 5 issued at 5:00 PM today.

#### 24-Hour Sea Condition Outlook

##### **Up to very rough seas over the following coastal waters:**

- **Up to 5.5 m:** The northern and eastern seaboard of Catanduanes; the seaboard of Northern Samar.
- **Up to 5.0 m:** The eastern seaboard of Babuyan Islands, Cagayan, Isabela, Albay, Sorsogon, and Eastern Samar; the northern seaboard of Aurora; the northern and eastern seaboard of Polillo Islands, Camarines Norte and Camarines Sur.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

##### **Up to rough seas over the following coastal waters:**

- **Up to 4.0 m:** The seaboard of Batanes; the western seaboard of Babuyan Islands; the remaining seaboard of Aurora; the western seaboard of Ilocos Norte; the eastern seaboard of Dinagat Islands and Siargao and Bucas Grande Islands; the seaboard of northern mainland Quezon.
- **Up to 3.5 m:** The northern seaboard of Cagayan and Ilocos Norte; the remaining seaboard of Babuyan Islands; the seaboard of La Union.
- **Up to 3.0 m:** The seaboard of Pangasinan and Surigao del Sur.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

##### **Up to moderate to rough seas over the following coastal waters:**

- **Up to 2.5 m:** The western seaboard of Bataan, Occidental Mindoro including Lubang Island, and northern Palawan; the eastern seaboard of Davao Oriental.
- **Up to 2.0 m:** The eastern seaboard of northern Palawan including Cuyo Islands; the seaboard of Romblon, Aklan, and Antique; the northwestern seaboard of Masbate including Burias Islands; the western seaboard of Marinduque; the eastern seaboard of Oriental Mindoro.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

#### TRACK AND INTENSITY OUTLOOK

- WILMA is forecast to move west southwestward until Saturday (06 December) before turning generally westward for the remaining forecast period. On the forecast track, the center of WILMA may make its initial landfall in Eastern Visayas or Dinagat Islands between tomorrow (05 December) evening and Saturday morning. Afterwards, it will continue to traverse Visayas until Sunday (07 December). It will then emerge over Sulu Sea and may pass over northern Palawan between Sunday evening and Monday (08 December) morning.
- WILMA will slightly intensify before landfall but will likely remain a tropical depression throughout the forecast period. Further intensification is likely once it emerges over the West Philippine Sea.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 PM today.
