

## TROPICAL CYCLONE BULLETIN NR. 1

### Tropical Depression WILMA

Issued at 11:00 AM, 04 December 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

#### THE LOW PRESSURE EAST OF EASTERN VISAYAS DEVELOPED INTO TROPICAL DEPRESSION WILMA.

##### Location of Center (10:00 AM)

The center of Tropical Depression WILMA was estimated based on all available data at **625 km East of Catarman, Northern Samar (12.6°N, 130.4°E).**

##### Intensity

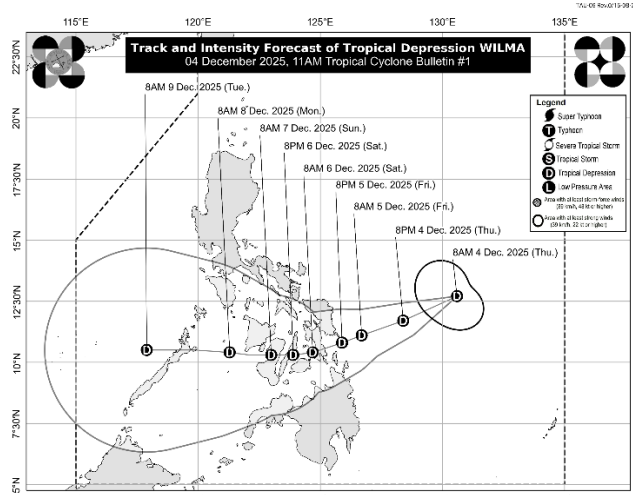

Maximum sustained winds of **45 km/h** near the center, gustiness of up to **55 km/h**, and central pressure of **1004 hPa**

##### Present Movement

**West southwestward at 20 km/h**

##### Extent of Tropical Cyclone Winds

**Strong winds** extend outwards up to **200 km** from the center

## TROPICAL CYCLONE BULLETIN NR. 1

### Tropical Depression WILMA

Issued at 11:00 AM, 04 December 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

#### HAZARDS AFFECTING COASTAL WATERS

**Gale Warning is in effect over the northern and western seaboard of Northern Luzon and the eastern seaboard of Luzon and Visayas.** Refer to Gale Warning No. 4A issued at 11:00 AM today.

##### 24-Hour Sea Condition Outlook

###### **Up to very rough seas over the following coastal waters:**

- **Up to 5.5 m:** The northern and eastern seaboard of Catanduanes; the seaboard of Northern Samar.
- **Up to 4.5 m:** The seaboard of Batanes, Babuyan Islands, Cagayan, Ilocos Norte, and Eastern Samar; the northern seaboard of Aurora; the eastern seaboard of Polillo Islands, Albay, and Sorsogon; the northern and eastern seaboard of Camarines Norte and Camarines Sur.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

###### **Up to rough seas over the following coastal waters:**

- **Up to 4.0 m:** The seaboard of northern mainland Quezon; the remaining seaboard of Aurora.
- **Up to 3.5 m:** The seaboard of Ilocos Sur; the eastern seaboard of Dinagat Islands and Siargao and Bucas Grande Islands.
- **Up to 3.0 m:** The seaboard of La Union, Pangasinan, and Surigao del Sur.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

###### **Up to moderate to rough seas over the following coastal waters:**

- **Up to 2.5 m:** The seaboard of Pangasinan; the western seaboard of Bataan and Occidental Mindoro including Lubang Island; the eastern seaboard of Davao Oriental.
- **Up to 2.0 m:** The seaboard of northern Palawan including Cuyo Islands, Romblon, Aklan, and Antique; the northwestern seaboard of Masbate including Burias Islands; the western seaboard of Marinduque; the eastern seaboard of Oriental Mindoro
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

#### TRACK AND INTENSITY OUTLOOK

- WILMA is forecast to move west southwestward until Saturday (06 December) before turning generally westward for the remaining of the forecast period. On the forecast track, the center of WILMA may make its initial landfall Eastern Visayas or Dinagat Islands between tomorrow (05 December) evening and Saturday morning. Afterwards, it will continue to traverse Visayas until next week, Monday (08 December). It will then emerge over Sulu Sea and may pass over northern Palawan between Monday evening and Tuesday (09 December) morning.
- WILMA will slightly intensify before landfall but will likely remain a tropical depression throughout the forecast period. Further intensification is likely once it emerges over the West Philippine Sea.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
