

## TROPICAL CYCLONE BULLETIN NR. 14

### Tropical Depression WILMA

Issued at 11:00 AM, 06 December 2025

Valid for broadcast until the next bulletin at 2:00 PM today.

#### WILMA CONTINUES TO MOVE SLOWLY AS IT MOVES CLOSER TO EASTERN SAMAR-NORTHERN SAMAR.

##### Location of Center (10:00 AM)

The center of Tropical Depression WILMA was estimated based on all available data at **over the coastal waters of Sulat, Eastern Samar (11.8°N, 125.9°E).**

##### Intensity

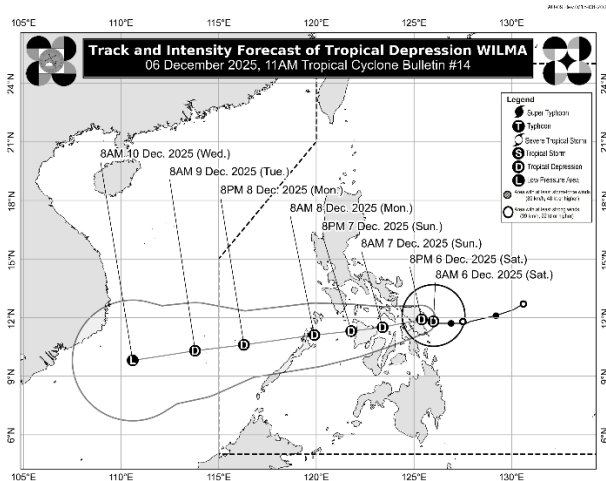

Maximum sustained winds of **45 km/h** near the center, gustiness of up to **55 km/h**, and central pressure of **1004 hPa**

##### Present Movement

**Westward Slowly**

##### Extent of Tropical Cyclone Winds

**Strong winds** extend outwards up to **200 km** from the center

#### TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)

## TROPICAL CYCLONE BULLETIN NR. 14

### Tropical Depression WILMA

Issued at 11:00 AM, 06 December 2025

Valid for broadcast until the next bulletin at 2:00 PM today.

#### OTHER HAZARDS AFFECTING LAND AREAS

##### Heavy Rainfall Outlook

Refer to Weather Advisory No. 12 issued at 11:00 AM today for the heavy rainfall outlook due to Tropical Cyclone WILMA and Shear Line.

##### Severe Winds

The wind signals warn the public of the **general wind threat** over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

Furthermore the Northeast Monsoon will also bring **strong to gale-force gusts** over the following areas **not under Wind Signal** (especially in coastal and upland areas exposed to winds):

- **Today:** Most of Luzon, Visayas, and Zamboanga Peninsula
- **Tomorrow (07 December):** Most of Luzon, Visayas, and Zamboanga Peninsula
- **Monday (08 December):** Most of Luzon

#### HAZARDS AFFECTING COASTAL WATERS

**Gale Warning is in effect over the eastern seaboard of Luzon and Visayas.** Refer to Gale Warning No. 8 issued at 5:00 AM today.

##### 24-Hour Sea Condition Outlook

**Up to very rough seas over the following coastal waters:**

- **Up to 5.5 m:** The northern and eastern seaboard of Catanduanes; the eastern seaboard of Albay and Sorsogon; the northern seaboard of Northern Samar.
- **Up to 5.0 m:** The seaboard of mainland Cagayan, Isabela, and Aurora; the northern and eastern seaboard of Polillo Islands, Camarines Norte, and Camarines Sur; the remaining seaboard of Northern Samar.
- **Up to 4.5 m:** The eastern seaboard of Batanes, Babuyan Islands, and Eastern Samar.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

**Up to rough seas over the following coastal waters:**

- **Up to 4.0 m:** The remaining seaboard of Batanes and Babuyan Islands; the seaboard of Ilocos Norte.
- **Up to 3.5 m:** The seaboard of Surigao del Sur and Kalayaan Islands.
- **Up to 3.0 m:** The remaining seaboard of Ilocos Region; the eastern seaboard of Davao Oriental.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

**Up to moderate to rough seas over the following coastal waters:**

- **Up to 2.5 m:** The western seaboard of Zambales, Bataan, Batangas, and Palawan; the seaboard of Cuyo Islands; the western seaboard of Antique and Negros Occidental; the southern seaboard of Oriental Mindoro, Negros Oriental, and Davao Occidental; the seaboard of Occidental Mindoro, Romblon, and Aklan.
- **Up to 2.0 m:** The remaining seaboard of Palawan, Quezon, and Camarines Sur; the seaboard of Marinduque; the northwestern seaboard of Masbate including Burias Islands; the remaining seaboard of Oriental Mindoro; the northern seaboard of Zamboanga del Norte.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

## TROPICAL CYCLONE BULLETIN NR. 14

### Tropical Depression WILMA

Issued at 11:00 AM, 06 December 2025

Valid for broadcast until the next bulletin at 2:00 PM today.

#### TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to “Other Hazards affecting Land Areas” for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- WILMA is forecast to move generally westward for majority of the forecast period. On the forecast track, the center of WILMA may make its initial landfall over Eastern Samar or Northern Samar today. Afterwards, it will continue to traverse Visayas until tomorrow (07 December). It will then emerge over Sulu Sea and may pass over northern Palawan by Monday (08 December) morning.
- WILMA will likely remain as a tropical depression throughout its passage over Visayas and Palawan. However, due to dry intrusion from the northeast monsoon, there is an increasing likelihood of weakening into a remnant low while traversing the area of Visayas.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 2:00 PM today.
